

#Virtual Expert Session

SMART FACTORY ASSEMBLY

We don't know how you envision the future of industrial production. But we do have a solution that paves the way to it.

How can the **production be digitalized?**
And what is the easiest way to start?

We will show you in an **Online Session** with split screen, how Smart Factory Assembly works:

- Advantages of **digital work instructions**
- Integration of **intelligent tools**
- Evaluation of **quality and production data**

At the same time, we can also discuss your situation and challenge to point out individual solution alternatives according to your needs.

Languages: German and English

Duration: 30 minutes

Why Choose Us?

- ✓ Domain expertise
- ✓ Digital operations
- ✓ Digital mindset
